

KEYBOARD ADAPTER

To connect the keyboard you need a special adapter.

Currently such adapter isn't sold, but you can build your own. **WARNING: DO NOT ATTEMPT THIS YOURSELF UNLESS YOU'RE GOOD WITH SOLDERING.**

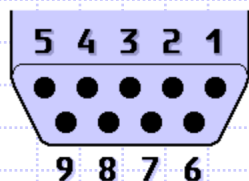

One end of the cable has a slot for inserting a Saturn joystick. The connections are numbered as follows:

1 2 3 4 5 6 7 8 9

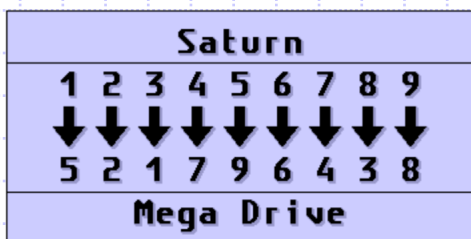

WARNING: do NOT attempt this by yourself if you aren't good with soldering. Ask for help to somebody who is good at it.

The other end has a Mega Drive joystick plug. The connections are numbered as follows:

Connect them as follows:

WARNING: do NOT attempt this by yourself if you aren't good with soldering. Ask for help to somebody who is good at it.
